Charlotte, NC | 703-901-3821 | farazuddinva@gmail.com

PROFESSIONAL SUMMARY

Product Owner, Scrum Master, and Business Analyst with 12+ years of experience delivering software solutions across financial services, fintech, and enterprise platforms, from startups to Fortune 100 companies. Independent consultant in Charlotte, NC since 2019, taking on contract engagements with major financial institutions to build broad, hands-on experience across various domains.

SKILLS

Product & Agile: Product Ownership, Backlog Management, Roadmapping, SAFe, Scrum, PI Planning, Epics and User Stories (Gherkin), Sprint Planning, Discovery, UAT, Stakeholder Management

Business Analysis: Requirements Gathering, BRD/FSD, Workflow Redesign, Wireframing and Prototyping, Data Analysis, Change Management, Waterfall to Agile Transition

Tools & Technology: Jira, Confluence, Pega, Power BI, SQL, Figma, Balsamiq, Sketch, Salesforce, MS Excel, MS Visio, MS Access, ALM, React, Angular, Java

PROFESSIONAL EXPERIENCE

Wells Fargo

Charlotte, NC

Product Owner (Contract)

Nov 2025 - Jul 2026

- Owned the product backlog for a Risk Profile Assessment application and a Pega-based shared mailbox platform, achieving sprint readiness three sprints out, the team's first sustained planning coverage in over a year.
- Drove vendor reduction initiatives targeting \$300K+ in annual savings, reducing reliance on third-party providers including Fiserv.
- Led discovery sessions translating business needs into Gherkin-formatted user stories for clear developer handoff.
- Delivered Power BI enhancements improving merchant risk analysis and reporting accuracy.

Tools: Agile, Pega, Power BI, SQL, React, Figma, Jira, Confluence, MS Office

Bank of America

Charlotte, NC

Product Owner (Contract)

Nov 2024 - Apr 2025

- Served as Product Owner for the GFD Orchestration Application, integrating real-time payment data with the PFD fraud detection platform.
- Led PI Planning and Agile ceremonies within a SAFe Agile Release Train spanning multiple teams.
- Authored epics and Gherkin-formatted user stories translating fraud detection logic into testable development work.
- Managed production incidents and cybersecurity threats, maintaining compliance with regulatory and risk policies.

Tools: SAFe Agile, Java, SQL, React, Angular, Figma, Jira, Confluence

TIAA

Charlotte, NC

Scrum Business Analyst / Product Owner (Contract)

Jun 2022 - Nov 2024

- Led two concurrent Agile teams: investment performance applications spanning 9,000+ fund profile pages, and PlanFocus, a retirement platform serving institutional clients including Harvard University.
- Led PI Planning and Agile ceremonies within a SAFe environment, aligning delivery with program-level objectives across multiple Agile Release Trains.

- Authored epics, features, and Gherkin-formatted user stories informed by data analysis and stakeholder feedback.
- Performed API and UAT validation across pre- and post-release environments, reducing defect leakage and improving release quality.

Tools: SAFe Agile, Java, SQL, React, Angular, Figma, Jira, Confluence

Bank of America

Charlotte, NC

Scrum Master / Business Systems Analyst (Contract)

Jul 2021 - Mar 2022

- Oversaw two Scrum teams (front-end and back-end engineering) of onshore and offshore developers building internal and customer-facing applications.
- Led Pre- and Post-PI Planning through a Continuous Exploration process, synthesizing product vision, roadmap, and backlog.

Wells Fargo

Charlotte, NC

Business Systems Analyst / UI-UX Designer (Contract)

Jul 2019 - May 2021

- Elicited requirements from application owners across multiple lines of business, translating BRDs into Functional Specification Documents (FSDs) in ALM.
- Designed low- and high-fidelity wireframes and prototypes in Balsamiq, producing user personas, flows, and site maps to support system design.
- Facilitated the organization's transition from Waterfall to Agile delivery, supporting change management and process adoption.

Bloomberg L.P. (Bloomberg BNA)

Arlington, VA

Business Analyst

Feb 2015 - Jul 2019

- Led requirements gathering and workflow redesign for a legacy-to-SAP migration, partnering with development and QA through build, test, and go-live.
- Managed SaaS migration workstreams across Salesforce, global payment systems, and order processing.
- Delivered a SQL and advanced Excel automation solution that eliminated 500+ manual work hours, completing the project ahead of schedule.

APWU - American Postal Workers Union

Washington, DC

Business Analyst

May 2014 - Jan 2015

- Managed the full implementation lifecycle for a legacy-to-new scheduling system, from requirements and workflow design through testing and end-user training.
- Developed SQL queries and Excel-based reporting for data validation; served as primary liaison between business stakeholders and the technology team.

EDUCATION

George Mason University

Fairfax, VA

Bachelor of Science, Information Systems & Operations Management

2008 - 2012
